

National Work Zone Safety Awareness Week April 2-8!

Thousands of people die and over 52,000 people are injured in work zone accidents each year. Four out of five of those people are drivers or passengers. For our workers, and for your family, remember: Slow down and be alert when approaching or driving in roadway work zones.

"It's a dangerous job. I have to keep my eyes open not only for my own safety, but for the safety of the rest of the crew."

— Wayne Whalen
Maintenance
Operator Class 3

"Drivers need to SLOW DOWN in work zones and be aware of their surroundings."

— Dan Maher
Motorist Assistance Patrol

Please give them (and yourself) a

BRAKE!

"We've had a work zone incident. Don't let it happen to you!"

DeIDOT's Motorist Assistance Patrol members, equipment operators, engineers, maintenance workers and many others count on you to be extra cautious in work zones.
